Situations Guaranteed.

We do not guarantee situations to prospective students in order to get their patronage. Schools of merit do not resort to such dishonest practices. Fake schools "guarantee" situations in order to secure students, because they have no other inducements to offer. Our work is so thorough that a guarantee is superfluous. Business men are so eager to get competent help here that a large per cent. of our students take positions before they graduate. See us before making arrangements for your business and shop and education at some inferior fake school. We will take pleasure in telling you all about the loopholes in the "position guarantees" of dishonest schools. Catalogue free.

Roasted Alive.

"Every one has heard of the horrible story of Ardesoif of Tottenham, who, about thirty years since, being disappointed by a famous cock refusing to fight, was incited by his savage passion to roast the animal alive, whilst entertaining his friends.

"The company, alarmed by the dreadful shrieks of the poor victim, interfered, but were resisted by Ardesoif, who threatened death to any who should oppose him; and in a storm of rage and vindictive delirium, and uttering the most horrid imprecations, he dropped down dead. I had hoped," says our author, "to find this to be a falsehood, but to my sorrowful disappointment, on a late inquiry among the friends of the deceased miscreant, I found the truth of the horrible story but too probable."—Poultry Item.

Average Ages of Birds.

The doctrines of vegetarianism appear to be slightly shaken by the result of an investigation that an English newspaper has made into the subject of the longevity of birds.

With one exception the meat-eating birds are the longer lived. The exception is the swan.

The average ages of some of the best known birds are given below:

Years.	Years.
Blackbird lives 12	Parrot lives...60
Blackcap.....15	Partridge.....15
Canary.....24	Peacock.....24
Crane.....24	Pelican.....30

Illinois State Fair.

The premium lists of the Illinois State Fair, September 28 to October 5, 1906, are now being mailed from the office of the secretary.

The aggregate offerings to exhibitors for the coming fair amount to \$55,000, and the very liberal premiums in all departments will, without doubt, bring the largest exhibit ever seen at any state fair. Already applications for space, stalls and pens exceed those of any other previous year and by the opening of the fair the accommodations for exhibitors will be taxed to the limit in caring for the magnificent display in all departments. Persons desiring copies of the premium list or wishing space, stalls or pens should address at once, W. C. Garrard, Secretary, Springfield, Illinois.

Turkeys In Demand.

There has never been the demand for turkeys in all the history of the States that there now is. The good country women have lost and will lose thousands of dollars by neglecting to raise a sufficiency of turkeys. Thanksgiving and Christmas there was not one-fourth enough turkeys on the market to fill the demand. The price is likely to run up to 15 to 20 cents per pound for this unequalled table bird. While Tennessee is noted for growing large bronze turkeys, her people have not raised enough to satisfy our cities. Our advice is to increase the production of turkeys next season at least fourfold, and then country homes will feel the profitable effects of the turkey crop.—Agriculturalist.

Pure Breeds for Utility.

Some people seem to conclude that it is wrong to talk about utility in connection with pure-bred poultry, actually go so far as to intimate that it is disloyalty to the score card. The wonderful commercial importance of poultry today is mainly due to the poultry that sells the highest and that is more in demand is the highest in quality is the pure bred specimen. Mongrels or cross-bred specimens cannot be produced that will equal them. A package of pure bred fowls dressed for the market are uniform in size, weight, color and shape. These are great selling factors, as this very appearance is inviting. With the common scrubs mongrels, etc., there is generally a contracting condition in all these things that at once stamp them as "seconds" with commission men.—American Farmer.

Growing Around Nashville.

In the city and suburbs the desire for pure poultry is gaining greater headway, and plant after plant is being established for the raising of such fowls. The most prominent citizens of Nashville are enlisted in this industry, and they are doing all they can, not only to further local conditions, but to establish a pure strain of birds throughout the State.—Southern Poultry Magazine.

All Good Painters Agree that the best painting results are secured by the use of paint containing nothing but Pure White Lead ground in Pure Oil—colored of course to the desired shade.

There are substitutes for these two ingredients, such as barytes and zinc, which cost less, but invariably lower the quality. Pure White Lead paint requires less of the painter's time, looks better, lasts longer, affords better protection to the painted surface than any other kind. It forms an elastic coat that becomes at once an integral part of the wood painted. It will not crack or peel. It wears off gradually, leaving a surface ready for repainting without the expensive necessity of scraping and "burning off."

Insure yourself of the best results by insisting that every keg that is bought for your house bears this label:

COLLIER

Pure White Lead (Made by the Old Dutch Process)

Send for a booklet containing several handsome reproductions of actual houses, offering valuable suggestions for a color scheme in painting your house. A test for paint purity is also given.
